

LEADERSHIP
Study subject code: 024376

1. Abstract: The aim of the study subject is introduce the students with the basic principles and differences of management and leadership. This subject is designed to help students to develop their personal leadership skills. The course provides theoretical basics of leadership: management and leadership of organizations, personal leadership effectiveness, the methods to get high performance in leading people and transformational results. The students would learn to inspire and lead others by understanding themselves, they would know how you relate to other people of the work team and the leadership challenges they might get.
