

STUDENTS' SURVEY ON THE QUALITY OF THE CONTENT AND TEACHING OF STUDY COURSES

Autumn semester of 2021–2022

AIM OF THE SURVEY: to reveal students' attitude about the content of the study subject and the quality of teaching.

TARGET AUDIENCE: students of the study programme *Multimedia Technology*, who have completed the autumn semester and passed the examinations.

REFERENCE PERIOD: The study subjects taken in the autumn semester were assessed after receiving the final assessment of the subject by 28 February, 2022.

OBJECT OF THE SURVEY: The study subjects delivered in the autumn semester of 2021–2022.

METHODOLOGY OF THE SURVEY: the quantitative and qualitative methods were chosen for the analysis of the empirical data. The survey was conducted in the Study Management System. The survey questionnaires were submitted to 869 students. Participation in the survey was voluntary. The survey was anonymous and data confidentiality was guaranteed.

The evaluation of the quality of the study subject content was performed according to 6 criteria, the evaluation of the teaching quality was performed according to 8 criteria (in total 14 criteria). Students rated the quality of the content and teaching on a five-point scale, with 1 – strongly disagree, 5 – strongly agree.

SURVEY FINDINGS (N=179)

The average quality assessment of the content of the study programme *Multimedia Technology* subjects is 4.24 points (see Figure 1). In 2020–2021, the average of the evaluations of the content of study subjects in the autumn semester was 4.03.

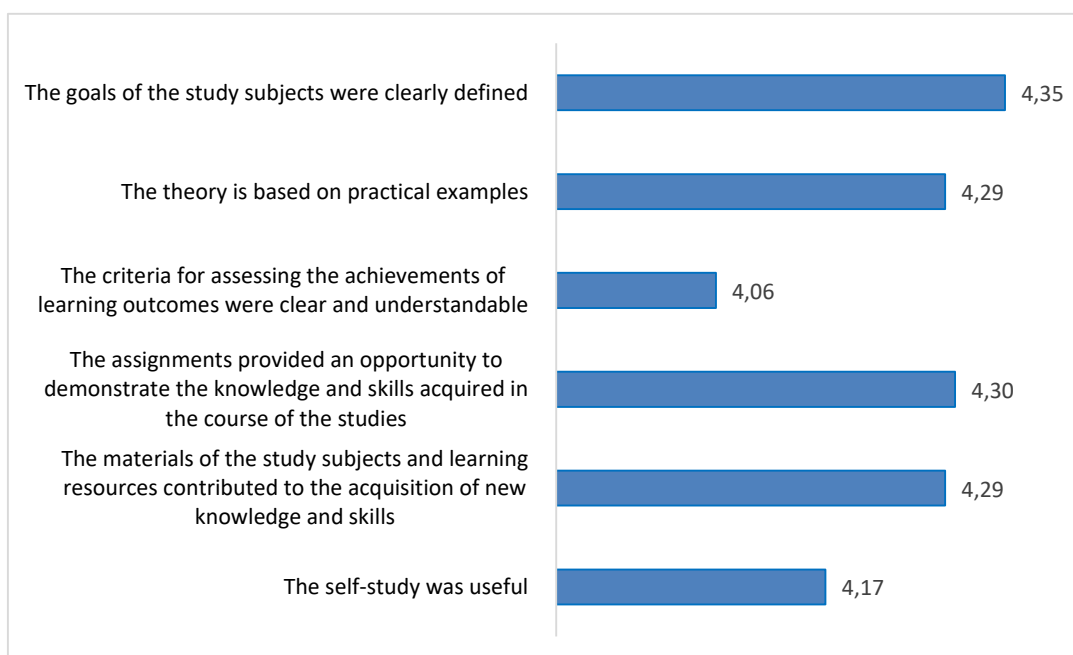

Fig. 1. Evaluation of the study subject quality of the study programme *Multimedia Technology* according to six criteria (averages)

The average of the rating of the teaching quality of the study programme *Multimedia Technology* subjects is 4.24 points (see Figure 2). In 2020–2021, the average of the assessments of the teaching of study subjects in the autumn semester was 3.94 points.

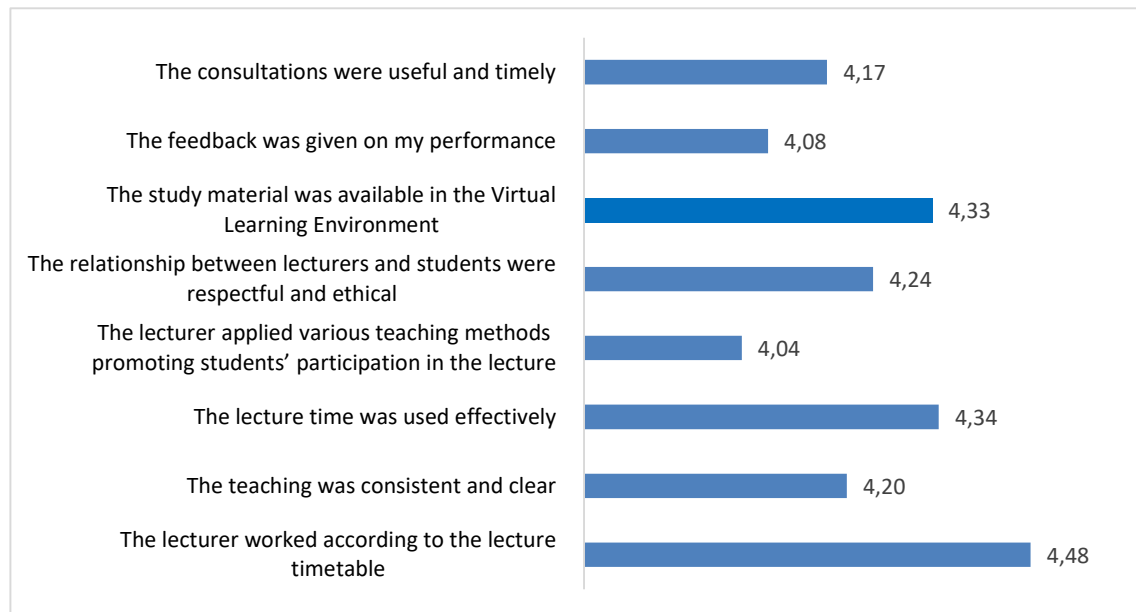

Fig. 2. Evaluation of the teaching quality of the study programme *Multimedia Technology* subjects according to eight criteria (averages)

To sum up, it can be stated that students positively rate the content of the study subjects of the autumn semester of 2021–2022 and the quality of their teaching. The overall average of the evaluations is 4.24 points.

It can be assumed that the measures planned to improve the quality of studies in response to the results of last year's student survey were appropriate and led to a higher level of teaching evaluation of the quality of studies in the autumn semester of 2021–2022, in comparison with the results of the 2020–2021 autumn semester survey. In 2021–2022, the averages of the content and quality assessments of the study subjects of the autumn semester according to all criteria are more than 4 points (in 2020–2021, the average of the quality assessments of the content and teaching of the subjects of the autumn semester according to 7 criteria out of 14 was less than 4).

Based on the findings of the survey, more attention should be paid to ensure the feedback provision, encourage teachers to use more diverse teaching methods in the study process, and clearly formulate and provide students with study subject objectives and assessment criteria.

For more information on the measures implemented in response to students' feedback, see the section *You said, we did*.
