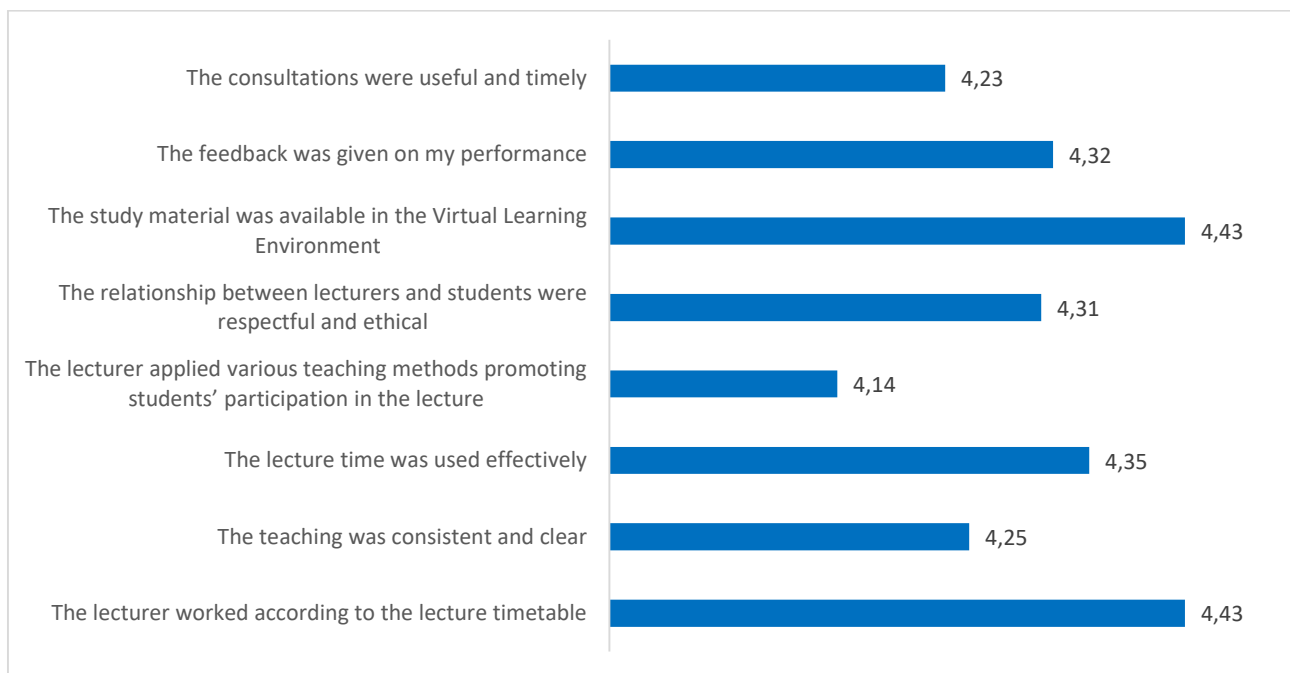

Fig. 2 Evaluation of the teaching quality of the study programme *Multimedia Technology* subjects according to eight criteria (arithmetic mean)

In the spring semestre of 2022, the averages of the evaluations of the study subject content and the quality of teaching based on all the provided criteria is higher than 4 points. The overall average of the evaluations of the subject study content and the quality of teaching is identical as previous year, that is, 4.28 points. To sum up, it can be stated that students' evaluations of the study subject content and the quality of teaching are positive.

Based on the survey findings, the descriptions of study subjects should be reviewed and/or more effective communication to students about the goals of the study subject, evaluation criteria is required, etc. More attention should be paid to consultations, teachers should be encouraged to develop their didactic competences and to apply more diverse teaching methods in the study process.
